

## The Team Primary Care Nurse is hosting a Summit In Newfoundland & Labrador, Canada.

Scheduled from February 26th to February 28th, this is an exclusive, invite-only event that aims to bring together key stakeholders from various sectors. The primary objective of this summit is to foster collaboration among government officials, academics, researchers, administrators, and representatives from national and international nursing organizations. The goal is to collectively develop a consensus document outlining a national plan for leveraging the Registered Nurse (RN) role to transform primary care in Canada. This event promises to be a pivotal moment in shaping the future of primary care in Canada, emphasizing collaboration and innovation for the benefit of healthcare practitioners and the communities they serve.

### Objectives:

#### Understanding the Current State:

- Explore the existing landscape of primary care nursing in Canada, with a specific focus on Newfoundland and Labrador (NL).
- Analyze challenges and opportunities associated with the current role of Registered Nurses in primary care.

#### Sharing Best Practices:

- Facilitate the exchange of theory-based practices and evidence-based approaches related to capitalizing on the Registered Nurse role.
- Discuss outcomes and lessons learned in overcoming barriers and challenges in integrating Registered Nurses into primary care settings.

#### Addressing Regional Challenges:

- Devote special attention to the unique challenges faced by NL in implementing Registered Nurses in primary care.
- Engage in brainstorming sessions to identify innovative solutions for the complexities specific to the region.

#### Developing a Comprehensive Plan:

- Collaboratively draft a comprehensive plan to capitalize on the Registered Nurse role and transform primary care across Canada.
- Identify key strategies, policies, and initiatives necessary for optimizing the contribution of Registered Nurses within the primary care team and the broader healthcare system.

### Deliverables:

The summit will culminate in a detailed report summarizing the proceedings of the conference. This report will:

- Provide insights into the current state of primary care nursing in Canada, with a focus on NL
- Outline key takeaways, best practices, and recommendations discussed during the event.
- Offer a roadmap and next steps to guide the optimization of the Registered Nurse role in primary care, contributing to the overall enhancement of the Canadian healthcare system.
